[October 2013 RM 10.9 RA WQMP and Air Monitoring Data Submittal.pdf](#)

Stephanie/Scott:

Please find the attached EPA Region 2 MEDD format data submittal package containing validated results associated with the LPRSA RM 10.9 RA Water Column Monitoring (Initial 48-Hour and Re-suspension Monitoring) and Air Monitoring activities performed by CH2M Hill. ddms is still receiving validation updates for the re-suspension WCM and the post-dredge sediment sampling activities so there will be at least one more validated data submittal in association with RM 10.9 Removal Action activities after this one.

The cover letter to this data submittal identifies the references values to be added to the EPA database and explains apparent errors generated by the EDP EDD checking software.

Please note that the attached zipped data files have been provided as a "ZZP" file and the file extension should be re-named "zip" to open it (in the event EPA's e-mail system rejects this type of file).
